BRENNTAG SPECIALTIES EUROPE

Brenntag Specialties Europe is committed to a collaborative European culture whereby our extensive and market-dedicated experts work in partnership with our customers and suppliers to generate mutually profitable growth.

Brenntag Specialties Europe is passionate about meeting the expectations of its business partners, and about further contributing to Brenntag's success story. As a means of achievement, Brenntag Specialties Europe bundles pan-European cooperation and specialised technology into a flexible, secure and effective way of developing innovative products.

The Brenntag Specialties Europe Team has emerged to become the partner of choice in specialty distribution within the European Economic Area. Our strategic industry-focused Development Panels, currently covering eight sectors, are essential to the delivery of effective and successful cooperation throughout Europe: ACES (Adhesives, Coatings, Elastomers,

Sealants), Cleaning, Feed, Food & Nutrition, Pharmaceuticals, Polymers, Water Treatment and Personal Care.

The structural and strategic categorisation and consolidation of resources make distribution more efficient, more cost-effective and easier to monitor. Therefore, our strategic industry-focused Development Panels are of enormous benefit to our business partners who profit from our integrated European marketing strategy, our technical expertise and our multi-country presence on a European scale.

Brenntag is committed to meeting the requirements of REACH and all other relevant legislation, and we would like to do this in close cooperation with our customers and suppliers. Therefore, we have comprehensively trained our sales and sourcing teams on the technicalities of REACH. They are able to answer the most important of your questions and assist you as required.

CLEANING EUROPE – SOURCING

Whether it is a matter of wooden floors, glass windows, automobile bonnets or industry workrooms – at Brenntag Cleaning Europe we help create products and environments that are appealing, comfortable and safe. It is a complex task, one that requires extensive industry contacts, dedicated partnerships and experts focused on finding the right solution. Our portfolio of professional and value-added services will meet all of your requirements – and more.

We understand the necessity of thinking globally while acting locally. That means not only do we build bridges between suppliers and customers locally and Europe-wide, we also ensure that our wide range of first-in-class products continues to evolve along with individual markets.

Wherever you find us doing business, you can therefore rest assured: we offer pure results for complex tasks.

Polished to Perfection

CLEANING EUROPE – TECHNICAL EXPERTISE

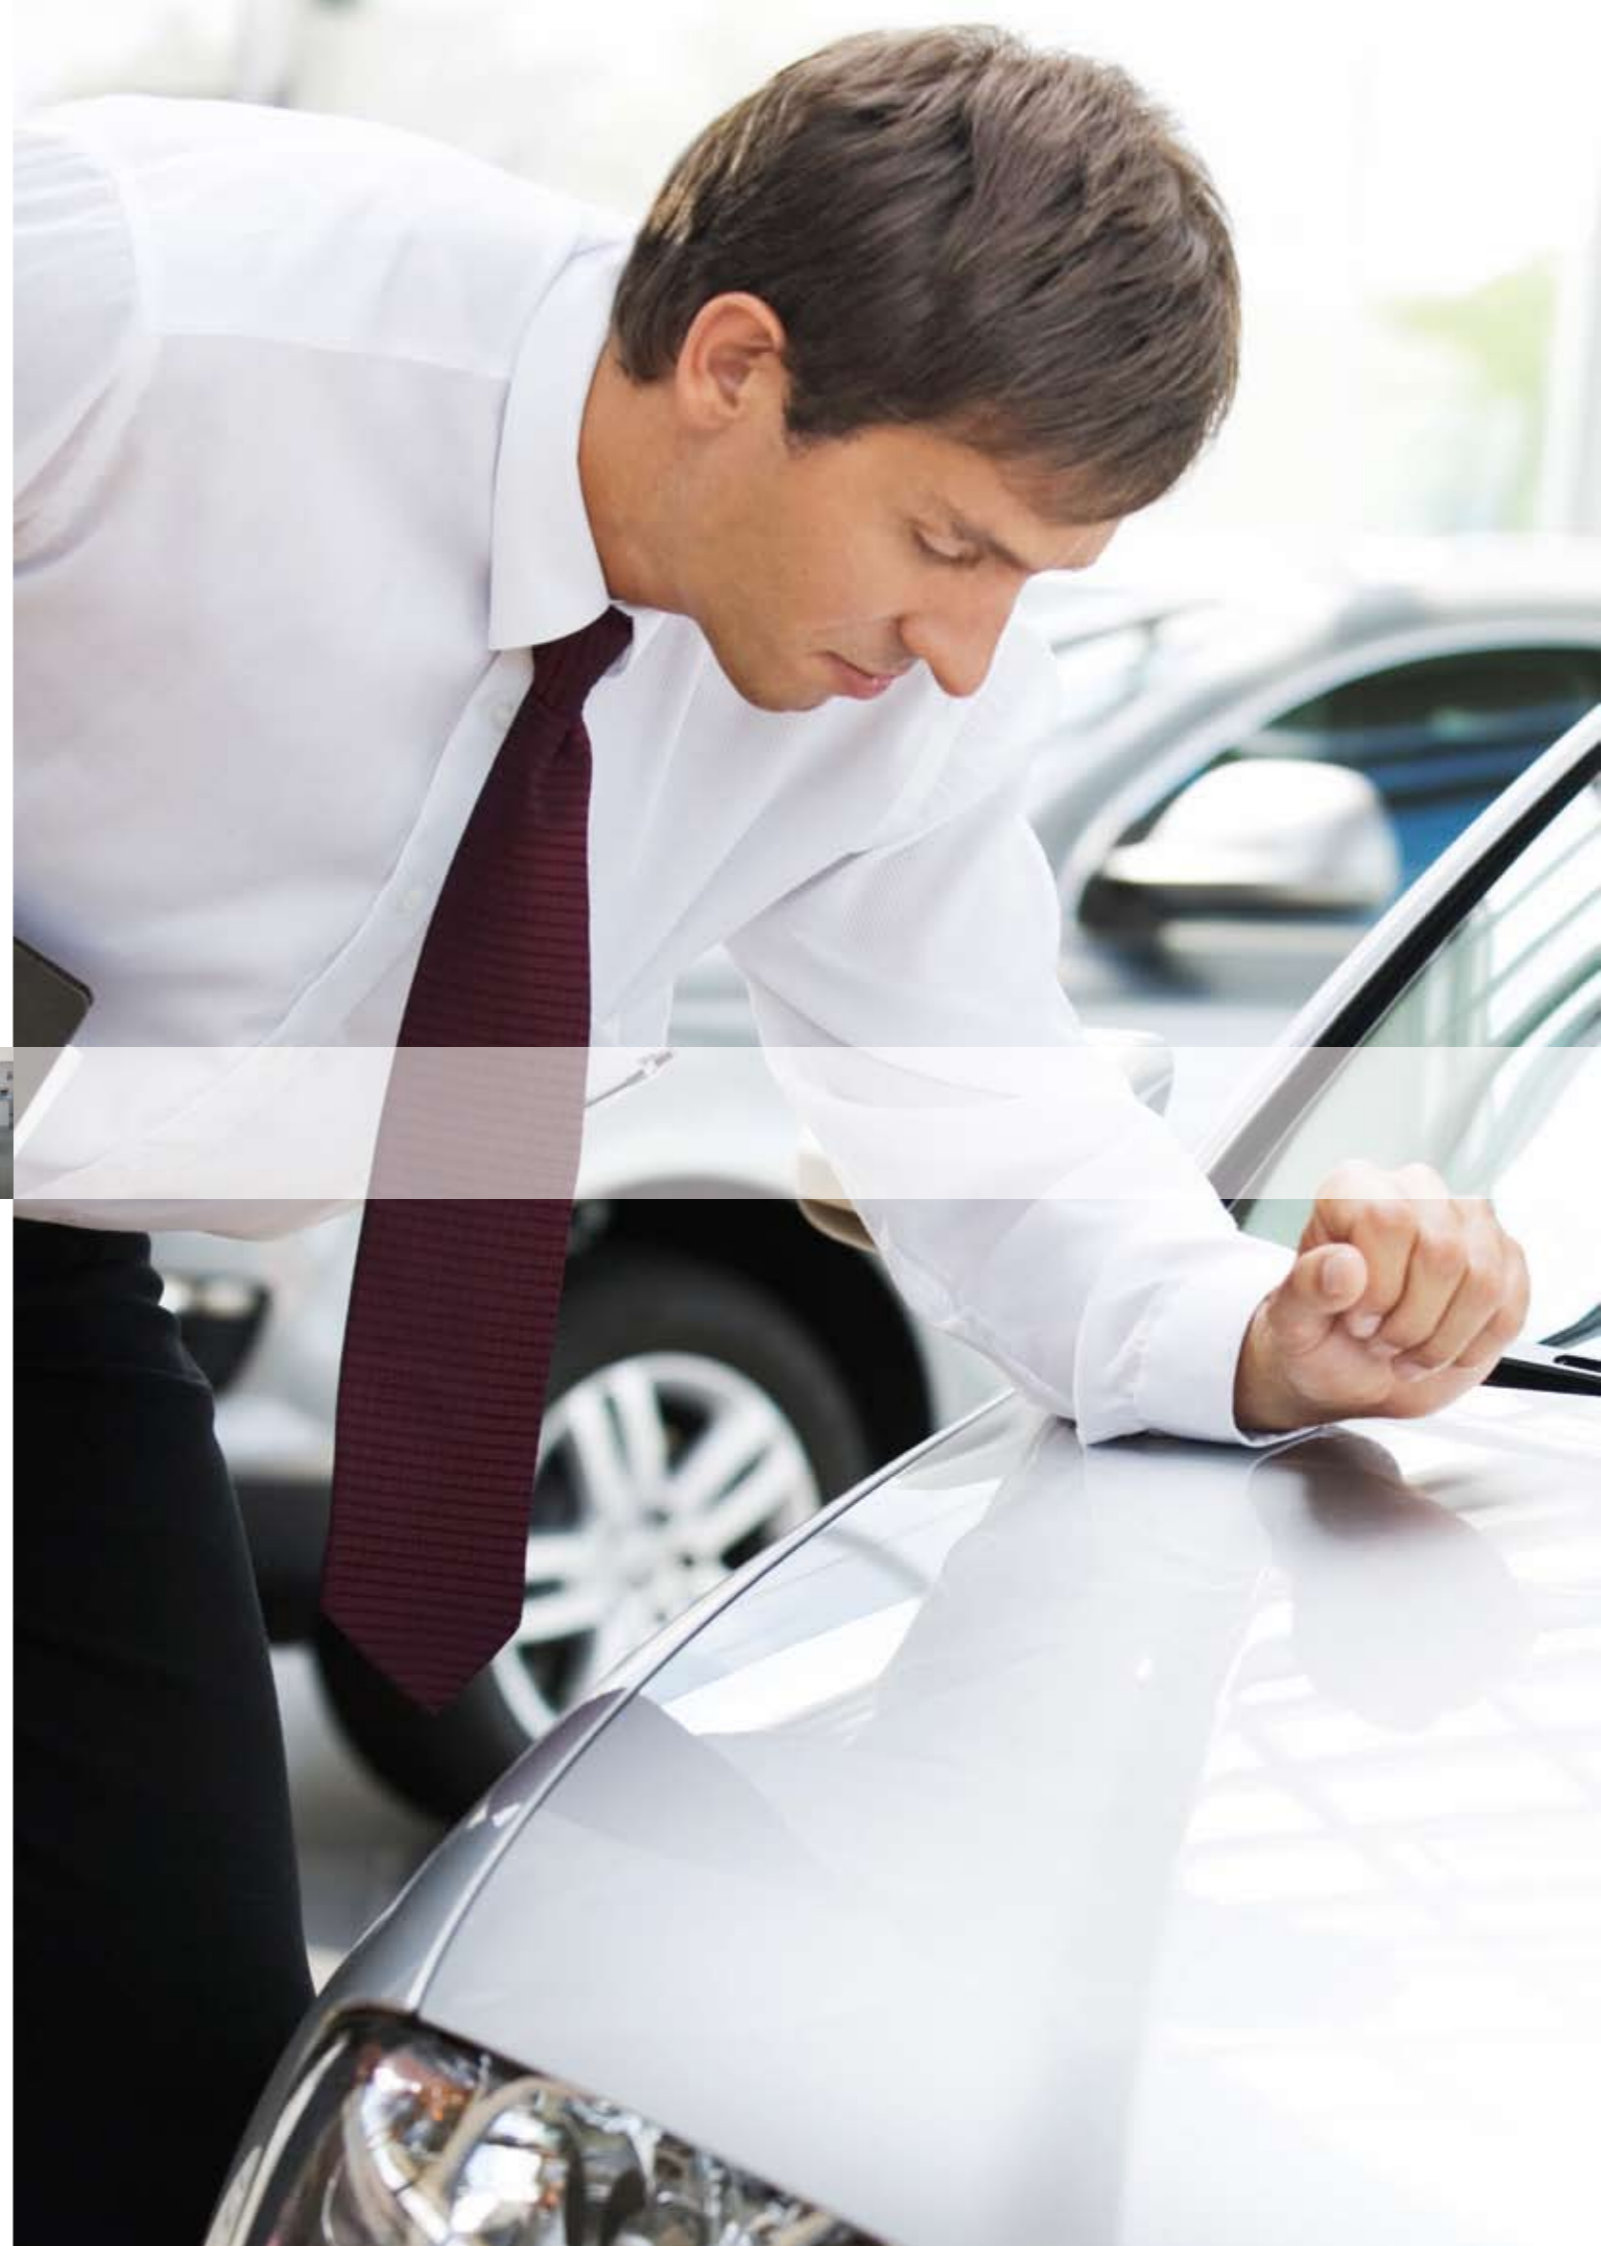

Today's world of surfactants, enzymes and biocides is complex – and growing more so, year by year. That's why our highly skilled chemists, chemical engineers and technical specialists undergo continual internal and external training – so our customers can offer state-of-the-art products that sparkle and shine, just the way they should.

Even better, our regularly held seminars and application laboratory workshops provide customers with the opportunity to share our

extensive expertise. That means our knowledge of current and emerging market trends can quickly become part of your own value-creation chain.

We offer all the products and services needed to meet today's stringent regulatory and quality guidelines – saving you considerable time and cost.

At Brenntag Cleaning Europe we offer first-in-class solutions – polished to perfection.

First Choice for Your Business

CLEANING EUROPE – SALES

Although it might not seem like it at first sight, ours is a people business. That is because no matter how technically complex our solutions might be, we have to design them to satisfy your individual needs – each and every time.

The highly motivated sales team at Brenntag Cleaning Europe is dedicated to providing the solution that is right for you. Not only does that require an extensive knowledge of the market, it means having a talent for people

skills and partnerships – as well as an eye for the day-to-day business basics.

Ultimately, offering a broad range of products and services in a complex market means being flexible while never losing sight of the details. We enjoy working together with our customers to identify what's needed and then delivering it as efficiently and reliably as possible.

When it comes to business partnerships, this is why we say: the closer the better.

Always a Step Ahead
